GASB Nos. 67 & 68 Report

Actuarial Certification	3
Summary	5
Statement of Fiduciary Net Position	6
Statement of Changes in Fiduciary Net Position	7
Schedule of Changes in Net Pension Liability and Related Ratios	8
Pension Expense	10
Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions	11
Discount Rate and Net Pension Liability Sensitivity	13
Schedule of Contributions	14
Actuarial Assumptions for Total Pension Liability	15
Actuarial Assumptions for Actuarially Determined Contributions	16
Plan Provisions	19

This report is prepared in accordance with our understanding of GASB Nos. 67 & 68 for the purpose of disclosing pension plans in financial statements. Determinations for purposes other than meeting these requirements may be significantly different from the results contained in this report.

The information presented in this report is based on:

- the actuarial assumptions included in this report;
- the plan provisions;
- participant information furnished to us by the Plan Administrator;
- asset information furnished to us by the Plan Trustee.

We have reviewed the provided data for reasonableness when compared to prior information provided, but have not audited the data. Where relevant data may be missing, we may have made assumptions we believe are reasonable for the purpose of the measurement. We are not aware of any significant issues with and have relied on the data provided. Any errors in the data provided may result in a different result than those provided in this report.

The interest rate, other economic assumptions, and demographic assumptions have been selected by the plan sponsor with our recommendations. The assumptions used, in our opinion, are reasonable and represent a reasonable expectation of future experience under the plan. All calculations have been made in accordance with generally accepted actuarial principles and practice.

A summary of any assumptions not included in this report, the plan provisions and the participant information is included in the Actuarial Valuation Report for funding purposes.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following:

- plan experience differing from that anticipated by the economic or demographic assumptions;
- changes in economic or demographic assumptions;
- increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and
- changes in plan provisions or applicable law.

We did not perform an analysis of the potential range of future measurements due to the limited scope of our engagement.

In preparing the results, Nyhart used Proval valuation software developed by Winklevoss Technologies, LLC. This software is widely used for the purpose of performing pension valuations. We coded the plan provisions, assumptions, methods, and participant data summarized in this report, and reviewed the liability and cost outputs for reasonableness. We are not aware of any material weaknesses or limitations in the software, and have determined it is appropriate for performing this valuation.

The undersigned are compliant with the continuing education requirements of the Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States.

To our knowledge there have been no significant events prior to the current year's measurement date or as of the date of this report which could materially affect the results contained herein.

Neither Nyhart nor any of its employees have any relationships with the plan or plan sponsor which could impair or appear to impair the objectivity of this report.

Net Pension Liability

The components of the net pension liability at November 30

	11/30/2023	11/30/2022
Total pension liability	\$ 233,181,713	\$ 233,522,651
Plan fiduciary net position	(199,699,919)	(203,908,420)
Net pension liability	\$ 33,481,794	\$ 29,614,231
Plan fiduciary net position as a percent of the total pension liability	85.64%	87.32%
Pension Expense for the Fiscal Year Ended November 30	\$ 6,100,209	\$ 6,928,277

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions

Inflation	2.50%	2.50%
Salary increases, including inflation	4.00%	4.00%
Investment rate of return, including inflation, and net of investment expense	7.00%	7.10%

Plan Membership

The total pension liability was determined based on the plan membership as of November 30

	2023	2022
Inactive plan members and beneficiaries currently receiving benefits	555	546
Inactive plan members entitled to but not yet receiving benefits	3	4
Active plan members	13	25
Total members	571	575

Thereafter	\$ 0

Discount rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Professional judgment on future contributions has been applied in those cases where contribution patterns deviate from the actuarially determined rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate

The following presents the net pension liability, calculated using the discount rate of 7.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)

The total pension liability as of November 30, 2023 was determined using the following actuarial assumptions:

Measurement Date	November 30, 2023
Actuarial Cost Method	Aggregate
Asset Method	Market Value of Assets
Interest Rates	
Discount Rate	7.00%
Expected Long Term Rate of Return	7.00%
Municipal Bond Rate	N/A
Inflation	2.50%
Annual Pay Increases	4.00%
Mortality Rates	
Active Lives - Police and Fire	PubS-2010 Employee mortality projected using fully generational improvements based on the Society of Actuaries' MP-2021 Projection Scale
Active Lives - General	PubG-2010 Employee mortality projected using fully generational improvements based on the Society of Actuaries' MP-2021 Projection Scale
Inactive Lives - Police and Fire	PubS-2010 Healthy Retiree mortality projected using fully generational improvements based on the Society of Actuaries' MP-2021 Projection Scale
Inactive Lives - General	PubG-2010 Healthy Retiree mortality projected using fully generational improvements based on the Society of Actuaries' MP-2021 Projection Scale
All other assumptions	As described in the assumptions section of the actuarial determined contribution

Valuation Date	November 30, 2023
Participant and Asset Information Collected as of	November 30, 2023
Actuarial Cost Method	Aggregate
Amortization Method	Closed level dollar of the Unfunded Present Value of Benefits amortized over the period ending on November 30, 2034 (11-year amortization in 2023)
Asset Method	5 year smoothing of asset gains and losses
Interest Rates	7.00%, net of investment expenses
Inflation	2.50%
Annual Pay Increases	4.00%
Annuity Withdrawal Assumptions	100% of members are assumed to elect a lump sum of member contributions in exchange for a reduced annuity benefit at retirement. The annuity offset is equal to the annuitized value of the member contributions using a 1.00% assumed interest rate.
Mortality Rates

Marital Status and Ages

90% of Participants assumed to be married with wives assumed to be 3 years younger than husbands.

Plan Administration:

The Plan is a single employer defined benefit pension plan administered by a Board of Trustees comprised of:

- a.) The mayor or mayor's designated administrative representative,
- b.) A member of the City Council, selected by the Council,
- c.) A member of the Civil Service Commission,
- d.) A police or fire member, elected by police and fire members,
- e.) A member of any retirement plan established by city ordinance who is not a police or fire member.

Membership Requirements:

Membership includes all persons in the classified and unclassified service of the city who perform services on a permanent part-time or full-time basis. New employees do not become members in this Retirement System.

Average Final Compensation:

The average of the highest annual compensations received during any 3 years of service contained within the 10 years of service immediately preceding retirement, including base salary, longevity, shift differential, paid time off, holiday pay, and payment of accumulated vacation time up to the limits established by the respective bargaining agreements. In addition, merit pay is included for Police members and Paramedic/EMT or ALS bonuses are included for firefighters.

Voluntary Retirement Eligibility:

- General Members: 30 years of service regardless of age, or age 55 with 10 years of service. Permanent part-time General members need only 10 calendar years of membership instead of 10 years of credited service.
- Police Members: 25 years of service regardless of age, or age 52 with 10 years of service.
Early Retirement: Age 50 with 10 years but less than 25 years of service, benefit reduced ½% per month below age 52.
- Fire Members: 25 years of service regardless of age (effective 10/17/16), or age 52 with 10 years of service.
Early Retirement: Age 50 with 10 years of service, benefit reduced ½% per month below age 52.

Normal Pension Amount:

General Members: 2.5% of the member's average final compensation (AFC) times years of credited service; maximum is 75% of AFC.

Police Members: 2.8% of the member's average final compensation (AFC) times the first 24 years of credited service, plus 7.8% of AFC for the 25th year of credited service; maximum 75% AFC.

Fire Members: 2.8% of the member's average final compensation (AFC) times years of credited service; maximum 75% AFC.

Deferred Pension (Vesting):

Eligibility: Termination of City employment, other than by death or disability, prior to attaining voluntary retirement age but after completing at least 10 full years of credited service.

Amount: A monthly pension, payable beginning at voluntary retirement age (or early retirement age with a reduced benefit), computed in the same manner as a normal pension but based on credited service and AFC at time of termination of City employment

Disability Retirement:

Eligibility: Termination of City employment by reason of total and permanent disability after completing at least 10 full years of credited service, except that in the event of a duty disability the 10-year service requirement is waived.

Amount: 1) Disability incurred after age 55: A monthly pension computed in the same manner as a normal pension but based on credited service and AFC at the time of termination. (2) Disability incurred before age 55: A monthly pension computed in the same manner as a normal pension but based on AFC at time of termination and the credited service the member would have completed had employment continued until age 55, provided that in the event of a duty disability the pension payable to age 55 shall not be less than 75% of AFC. Worker's compensation benefits are deducted. For non-duty disability cases, the following limitations apply:

<u>Maximum Total Actual Years Of Service</u>	<u>Maximum Benefit Years Used to Compute Benefit</u>	<u>As a Percent of AFC</u>
10-15	20	50.0%
16-20	25	62.5
Over 20	30- or actual service if greater	75.0

Non-Duty Death:

Eligibility: Death after completing 10 years of credited service, but before termination of City employment. If member had not attained age 55 at the time of death, the death benefit shall commence at the time they would have attained voluntary retirement age. Member must either: (1) have elected Option A and named a beneficiary, or (2) leave a surviving spouse in the event Option A was not elected.

Amount: Monthly pension the beneficiary would have received had the member retired the day before death (notwithstanding that he might not have attained his voluntary retirement age) and elected the 100% joint and survivor Option A.

Duty Death:

Eligibility: Death from causes arising solely and exclusively out of and in the course of a member's City employment.

Amount: Surviving spouse, or unmarried children under age 18 (if no surviving spouse), or dependent parents (if no surviving spouse or children) shall receive a monthly pension equal to the pension payable if the member had become duty disabled, elected the 100% survivor option and subsequently died. The option factor for children or parents is assumed to equal 80%. The benefit shall continue until: (a) death in the case of the widow, (b) death, marriage, adoption or attainment of age 18 in the case of the children. Worker's compensation benefits are deducted.

Cost-of-Living Allowance

An additional cost-of-living allowance will be paid to all retirees. The monthly amount is determined as follows.

Years after retirement	General members (excluding District Court), and Police Dispatchers retiring on or after December 1, 2007	Fire & Police members (excluding dispatchers) retiring on or after December 1, 2006 (March 20, 2006 for Fire) & before December 1, 2008	Police and Fire members retiring on or after December 1, 2008	Fire members retiring on or after 10/17/16, and LPOA, LLSA & Police Command on or after 12/1/2017
